### HOW WILL WE ACQUIRE SPANISH?

Many instructional approaches will be used to help all types of learners: Teaching Proficiency through Reading and Storytelling (TPRS), questioning strategies (yes/no, either/on, multiple choice, short answer), Total Physical Response (TPR), reading authentic documents, listening to authentic music, visiting authentic websites and studying authentic films to name a few.

Our goal in this class will be to acquire Spanish and will focus on communication. "Acquiring" a language is very different than "learning" a language. Acquiring is something that happens to you instead of something that you make happen. When you learned how to speak your first language, you acquired it naturally by listening to other people speak it around you for a long time, not by studying it. Therefore, almost all of our class time will be spent using Spanish and the focus will be listening and reading.
